

## A THREAT TO OUR DEMOCRACY?

So say the Democrats about Conservatives. Let's tabulate the real threats we are facing, and ask "who's doing them?"

- **Right to Vote**
  - General voter fraud
  - Gerrymandering
  - The party in power can regulate voting procedures to its benefit
  - Balloting: Proliferation of mail-in ballots that are not justified by medical and travel reasons nor can otherwise be validated.
  - Illegal Immigration: Letting in millions of illegals who are expected to be obliged to vote democratic after achieving citizenship. Schumer is already pushing for amnesty. That am nasty.

*Every illegitimate ballot cancels one citizen's legitimate ballot.*

- **First Amendment rights**
  - Freedom of the Press: The Constitution provides this to ensure the free dissemination of information, assuming being truthful and with the absence of bias.
    - Failure to inform us of the existential threat of China
    - Overlooking or minimizing the actual damage done by our government to our country, including illegal immigration.
  - Denigration of Law Enforcement
  - Free Speech: Opposing political speech is being extensively stifled.
- **Weakening our National Defense**
  - China: has the Biden family in its back pocket
  - Illegal immigration – unlimited infiltration by terrorists and spies
    - Drugs smuggled by illegals are killing thousands of Americans, especially our youth.
  - Depletion of our Strategic Oil Reserves

  - Distorting American History
  - Failure to stress the existential threats to America
  - Indoctrinating students with ideologies that are antithetical to American principles.
  - General “wokeness”
  - Covid lockdowns: American students are increasingly lagging in basic skills vs. students in most other countries
  - Effect on youth of the proliferation of lethal drugs by illegal immigration
  
- **Government assault on U.S. fossil fuel industry**
  - Failure to coordinate rate of fossil fuel production with the development of green energy
  - Green energy is highly unlikely to supplant fossil fuels
  - Going from energy independence to increasing dependency on foreign sources
    - Repression of U.S. oil industry increases worldwide cost of oil, funding Russia's assault on the Ukraine, whose defense we are funding.
    - U.S. Strategic Petroleum Reserve is being severely drained in order to compensate for increased petroleum prices,
  
- **Corruption of Law Enforcement and the Judiciary**
  - Limitation of quantity of law enforcement officers: defunding
  - Illegal immigration
  - Freeing felons from prison
  - Releasing repeated, violent offenders without or with minimal bond

*Lax law enforcement and failures to prosecute leads to anarchy.*

- **Degradation of Our Economy**
- Accelerating the National Debt
- High Inflation and increasing taxation
- Cost burden of accommodating illegal immigrants
